

Secure Sitter Premier™

NEW &
IMPROVED!

TIP & SLIP PROOF FEEDING CHAIR

The new, Secure Sitter Premier™ feeding chair is your single solution to feeding chair height needs. Adjustable to four popular heights (7", 9", 11", 13") to allow children's feet to properly rest on the ground. This easy-to-clean feeding chair provides maximum comfort and enables children to self-load with minimal assistance from the caregiver. The new, Stay-Put Foot™ grips eliminate movement on even the smoothest surfaces. The passive restraint, along with a cleanable three-point adjustable harness, safely secures children and prevents them from sliding out of the seat. The no tip design provides a stable base to keep the chair securely on the floor. For smaller children, a non-adjustable 5" seat height is available.

Secure Sitter Premier™ Feeding Chair: 20" L x 21.5" W x 17.5–23.5" H
Secure Sitter™ Feeding Chair: 20" L x 21.5" W x 15.5" H
