### Manual Foam Soap Dispenser

Code 702: White/Black Foam Soap Dispenser

### Specifications

#### Site Location:

This product is perfect for use in locations looking for a cost efficient product to dispense foam soap. Its bulk filled reservoir allows the end user to save costs and buy soap in bulk from various suppliers instead of locking into a cartridge system.

#### Features:

The high quality ABS provides a durable and inexpensive option for the end user. It's removable and refillable soap reservoir allows for easy cleaning and maintenance while helping the user to save costs on bulk foam soap. The 702 has a locking front cover to protect against vandalism and pilferage. It has completely concealed wall mounting with no visible mounting screws. The unit can also be mounted using the provided adhesive (for mirror mounting). The soap indicator window allows staff to quickly see the remaining soap levels and can plan maintenance accordingly.

#### Materials:

The 702 manual foam soap dispenser is made of robust high quality ABS and finished in an attractive white and black colour scheme. The unit dimensions are 4.5" (115mm) L x 4.5" (115mm) W x 10" (254mm) H. Unit weight: 1.3 lbs (0.6kg)

#### Capacity

The bulk filled reservoir holds 1 litre (33.8 US oz) of foaming soap. When dispensing the 702 provides the user with 20ml (0.7 US oz) of foamed soap.
